

I cannot believe that FCC is so irresponsible in proposing this exemption. I wonder how much is being paid to FCC Administrators by the lobbyists to propose this exemption. This is both absurd and contrary to protecting citizen's privacy rights. FCC we ARE STILL a country that practices democracy and protection of privacy and we don't sellout the citizens we represent. Why don't you all pack-up and leave USA, if you don't like what AMERICA stands for.

The individual rights supercede commercial or press rights. Individual rights were given to individuals by God, Almighty, and, therefore, must prevail.

God Bless America, and, God, please do not let the crooks in FCC prevail like the aethist.
